Leeswijzer

Doelen van de training

1. **Theorie:** Algemene kennis van App-ontwikkeling en diverse soorten apps (native, hybride, web).
2. **Praktijk:** Hybride apps maken met HTML, CSS en JavaScript.
3. **Praktijk:** Libraries kunnen inzetten om apps te maken.
Specifiek: gebruik van Framework 7 en Cordova.
4. **Praktijk:** De app builden en testen op een mobile device.
5. **Theorie:** Kennis van distributie via App Store of op andere wijze.

Vorige keer:

Nu:

Waarom?

- *Standalone applicaties* maken met HTML, CSS en JavaScript
- Draaien op *mobiele device*, geen browser
- *User Interface* aangepast op mobiele device
 - Lay-out voor Android
 - Lay-out voor iOS

3 delen

Deel 1:

- De app maken met HTML, CSS en JavaScript
- Framework 7
- Testen in de browser (!)

The screenshot shows a web browser window with the Framework7 website open. The left side displays the homepage with a red header, navigation links like 'Download' and 'Get Started', and a sidebar with components like 'Accordion', 'Action Sheet', and 'Badge'. The right side shows a mobile device mockup displaying the same content. On the far right, the browser's developer tools are open, specifically the 'Elements' tab, showing the raw HTML code for the page. The code includes various CSS and JS imports and defines the page structure with HTML tags.

Deel 2:

De app maken met
Cordova/PhoneGap en testen
op mobile device

Deel 3 - Publicatie

App Store Connect

Peter Kassenaar ▾
Peter Kassenaar | ?

The screenshot shows the App Store Connect interface. At the top, there are four main navigation icons: 'My Apps', 'App Analytics', 'Sales and Trends', and 'Payments and Financial Reports'. Below these, a sidebar on the left lists various management tasks, with 'App releases' being the active tab, indicated by a green checkmark. The main content area is titled 'Dashboard' and features a card for the 'Demo MinDef app' (status: Draft). The dashboard includes sections for 'Getting started' (with links to 'Get feedback from users before launching your app' and 'Find users in new markets') and a summary bar at the bottom.
